

SC-Asia 2018, SG-JP Joint session

HPCI High Performance
Computing Infrastructure

Japanese HPCI Open Call

- *HPCI : High Performance Computing Infrastructure* -

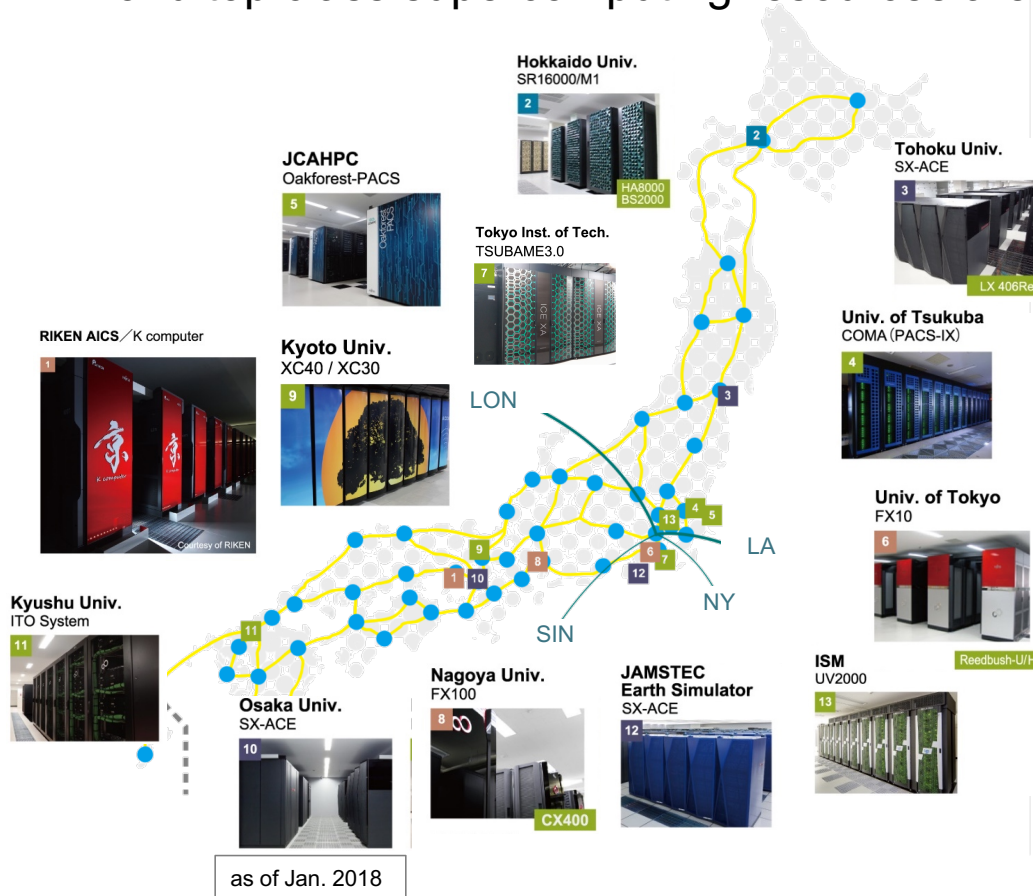

Motoi Okuda

Research Organization for Information Science & Technology

What is HPCI ?

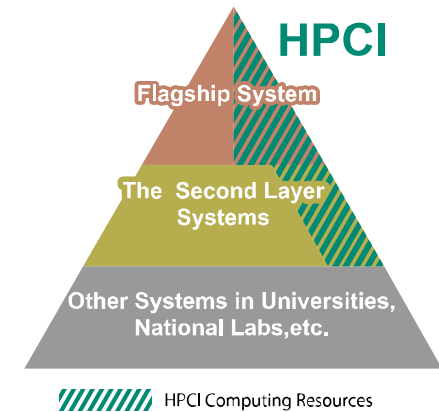

■ World top class supercomputing resources are open to the world wide HPC communities

Computing Resources Allocated for Public Call in FY 2017

K computer
 ~4 Pflops x Yr
Others in total
 ~5.6 Pflops x Yr

JCAHPC : Joint Center for Advanced High Performance Computing
 ISM : The Institute of Statistical Mathematics
 JAMSTEC: Japan Agency for Marine-Earth Science and Technology

What is HPCI ? (cont.)

- In **HPCI**, variety of supercomputer resources are provided **w/o charge**

Nov. 2017 Ranking

HPL	HPCG	Ranking	Site	Computers (architectures)
10	1	1	RIKEN AICS	<i>K computer</i> (SPARC64VIIIfx)
		2	Hokkaido Univ.	<i>SR16000/M1</i> (POWER7)
		3	Tohoku Univ.	<i>SX-ACE</i> (NEC) <i>LX406Re-2</i> (Xeon E5-2695v2)
		4	Univ. of Tsukuba	<i>COMA</i> (Xeon E5-2670v2+Xeon Phi 7110P)
9	6	5	JCAHPC	<i>Oakforest-PACS</i> (Xeon Phi 7250)
157	37	6	Univ. of Tokyo	<i>FX10</i> (SPARC64IXfx) <i>Reedbush-U/H</i> (Xeon E5-2695v4+Tesla P100)
13	10	7	Tokyo inst. Of Tech.	<i>TSUBAME3.0</i> (Xeon E5-2680v4+Tesla P100)
43	21	8	Nagoya Univ.	<i>FX100</i> (SPARC64XIfx) <i>CX400</i> (Xeon E5-2697v3,Xeon E5-2697v2+Xeon Phi 3120P)
41		9	Kyoto Univ.	<i>Cray XC40</i> (Xeon Phi 7250) <i>Cray XC30</i> (Xeon E5-2670v2+Xeon Phi 5120D)
		10	Osaka Univ.	<i>SX-ACE</i> (NEC) <i>VCC</i> (Xeon E5-2670v2+Tesla K20)
		11	Kyushu Univ.	<i>ITO Subsystem A</i> (Xeon skylake) <i>ITO Subsystem B</i> (Xeon skylake+Tesla P100)
	36	12	JAMSTEC	<i>SX-ACE</i> (NEC/EARTH SIMULATOR)
		13	ISM	<i>UV2000</i> (Xeon E5-4650v2)

As of January 2018

CPU

■ SPARC

■ Xeon/GPU/Phi

■ SX

■ POWER

Nov. 2017 Ranking

■ TOP500

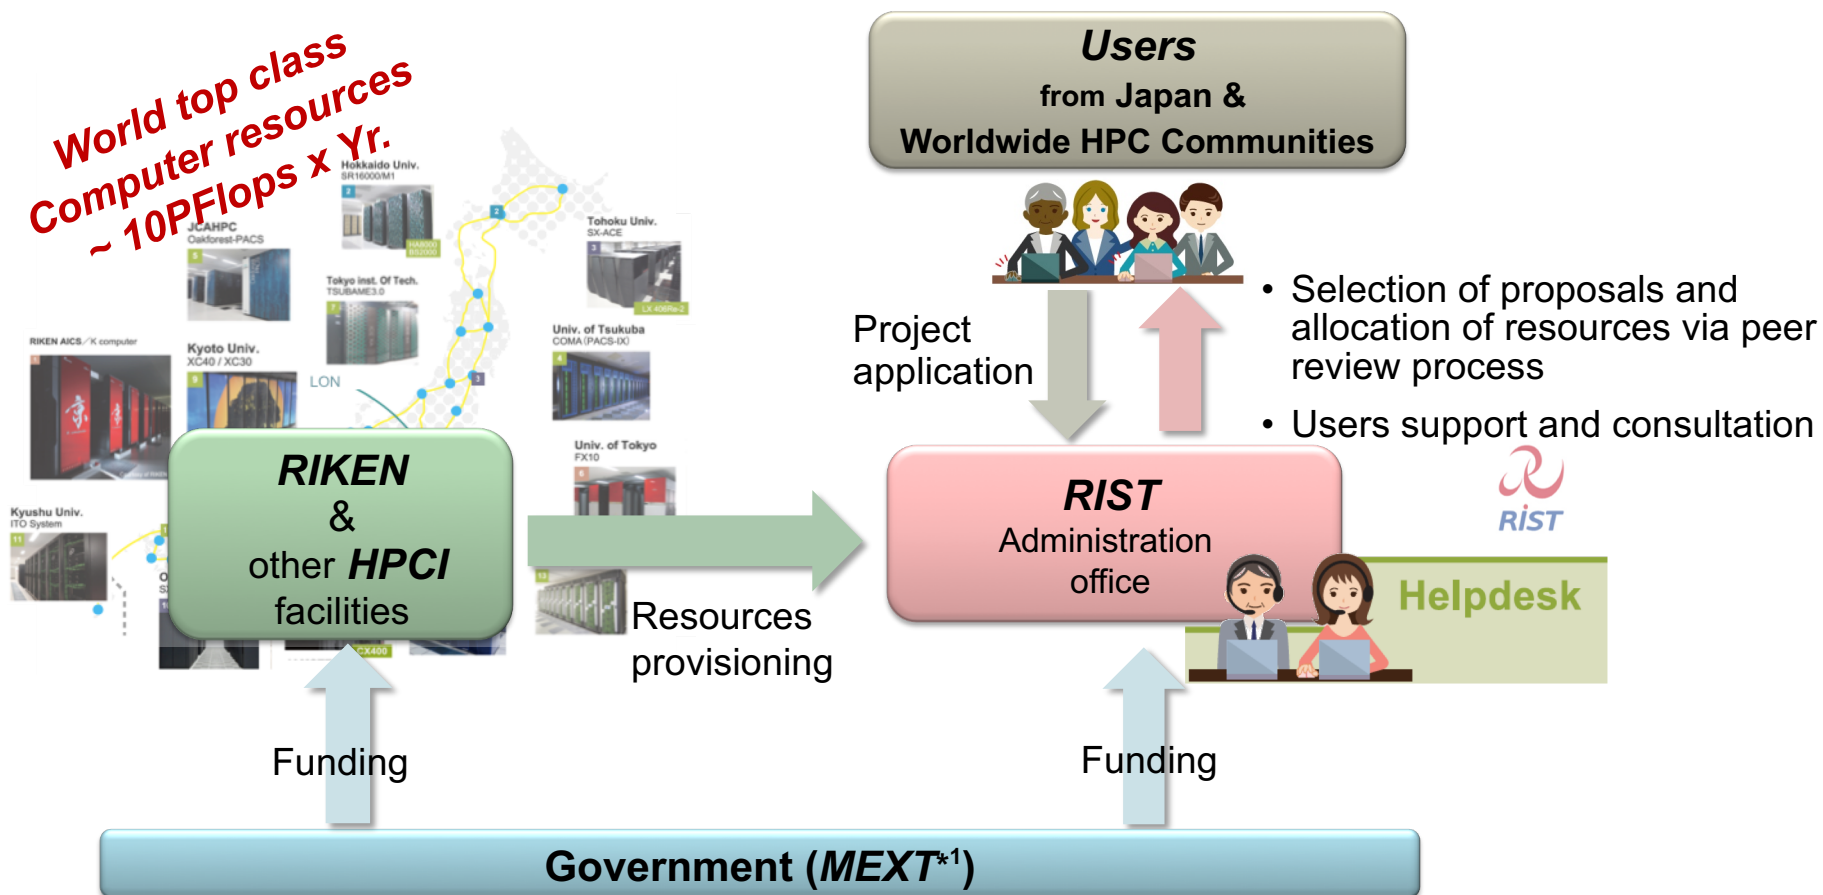

■ HPCG

JCAHPC : Joint Center for Advanced High Performance Computing

 JAMSTEC: Japan Agency for Marine-Earth Science and Technology

HPCI Outline Framework

**World top class
Computer resources
~ 10PFlops x Yr.**

*1 : Ministry of Education, Culture, Sports, Science and Technology,

Global Partnership

- Based on MoUs with **PRACE**, **XSEDE**, and **NSCC**, **RIST** is promoting partnership between global HPC communities as the national supercomputing resource administration organization

Project Categories and Calls for Proposals

Categories		K	Others
General projects	General Use	✓ (twice a year)	✓ (once a year)
	General Trial Use	✓ (year-round)	---
	Projects supported by competitive funding from public sectors (usage fee is charged)	✓ (year-round)	---
Junior Researcher Promotion Project		✓ (twice a year)	---
Industrial Use projects	Non-proprietary Use	✓ (twice a year)	✓ (once a year)
	Industrial Trial Use	✓ (year-round)	(depend on each provider)
	Proprietary Use (usage fee is charged)	✓ (year-round)	(depend on each provider)

: Projects selected at regular calls

: Projects selected at calls open year-round

Note: In case of persons who belong to foreign companies, proposals must be submitted jointly with project representatives who belong to corporations registered in Japan.

Projects Selected at Regular Calls in FY2018 (Period A)

■ Statistics of submitted & selected proposals

		Submitted	Awarded	Ratio
K computer ^{*1}	General Use	34(47)	17(19)	50(40)%
	Junior Researcher Promotion	12(16)	6(9)	50(56)%
	Industrial (non-proprietary)	25(29)	12(17)	48(59)%
	Total	71(92)	35(45)	49(49)%
Other HPCI system	General Use	101(118)*	60(61)	59(52)%
	Industrial (non-proprietary)	11(19)*	6(8)	55(42)%
	Total	112(137)	66(69)	59(50)%

Numbers in parentheses indicate those for FY 2017 (period A)

* Includes

- proposals which requested only "Other **HPCI** system"
- proposals which requested "Other **HPCI** system" as "the concurrent use with **K computer**" and were accepted with **K computer**,
- proposals which requested "Other **HPCI** system" as "the second choice of **K computer**" but were rejected with **K computer**.

Resource Allocation and Research Areas (FY2017)

Resource allocation (allocated resource based)

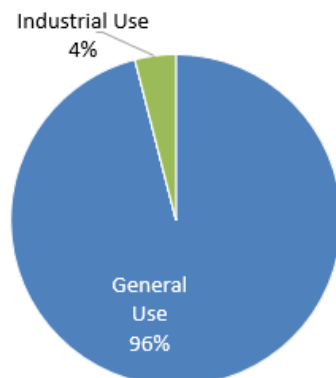

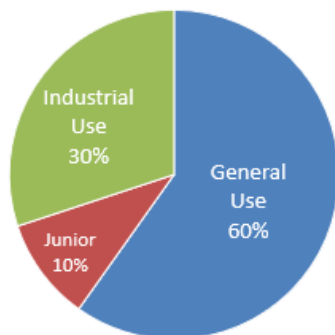

Research areas of selected projects (project number based)

Projects selected at regular calls

Projects selected at calls open year-round

Note: In case of persons who belong to foreign companies, proposals must be submitted jointly with project representatives who belong to corporations registered in Japan.

Trial Use of HPCI

- Best fit for **HPCI** first touch overseas users
 - ◆ Year around call timing
 - ◆ Max. 50,000 nodes-hours
 - ◆ Half year duration
 - ◆ Only user report is mandatory

**For more information,
Please join
RIKEN & RIST booth !
or
Visit HPCI portal site
<http://www.hpci-office.jp/folders/english>**

K computer
TRIAL USE

**Call for proposals of
General Trial Use projects for K computer**

Call for proposals of the General Trial Use program is open to applicants who seek to drive scientific innovation using K computer. The program is targeted towards projects aiming to validate their codes and to prepare for full-fledged usage of K computer. This call is also open to overseas academic societies. Proposals are accepted throughout the year and being screened on a quarterly basis.

- ◆ Resources: 50,000 node-hours per project
- ◆ Duration: Up to 6 months
- ◆ User fee: None
- ◆ Screening of proposals and notification of the results:
The project selection takes place quarterly, screening proposals made by the end of Feb., May, Aug., and Nov. Awarding results will be shortly notified (within about a couple of weeks).
- ◆ Reporting Requirements:
Projects should submit User Report within 60 days after the project completion. It will be published on the HPCI portal site. Publication of the research achievements to peer-reviewed journals is not required.
- ◆ Eligibility: Project Representatives have no experiences to use K computer.

For more details, visit HPCI portal site (<http://www.hpci-office.jp/folders/english>) or contact Helpdesk.
